With Sara Murawski, Hilary Wainwright, Harriët Bergman and Kali Akuno
- 5:00** **Borrel**
- 6:00** **Close**

The Transnational Institute (TNI) was founded in 1974 with a commitment to address war, poverty and inequality. Our history has been entwined with the history of global social movements and their struggle for economic, social and environmental justice. In 2024, we celebrate our 50th anniversary and take stock of the progress made, all that we have achieved with our partners, remember those departed comrades who have passed on and renew our determination to build a better world.

TNI TIME CAPSULE

Find TNI's time capsule in the lobby and send your message to the future. We're all fighting for a world that's more just, more peaceful, and truly democratic. After this weekend, our time capsule will be sealed—locked away until 2074. Inside, your words will wait, ready to speak to the future. What injustices must be eradicated? What values must endure? And once your letter is written, let's commit to doing the work of shaping that better future.
